

## The CGC FOUNDATION OPENING

### Preliminary Program

#### THEME:

#### **6G Evolution and/or Revolution of Future Wireless Technology and Business**

Skagen Education Center, Kuttervej 13, 9990 Skagen, Denmark

**The CGC Foundation** invites all interested people from all over the world to participate in the opening of THE CGC FOUNDATION and to hear and discuss together with representatives from research, industries and societies if 6G is an Evolution and/or a Revolution to technology, business and humans.

Future Wireless technologies as 6G are expected to bring a new age that will address environmental, economic and societal demands adequately with respect to privacy, security, transparency concerns inherent from previous generations to facilitate sustainable innovation and development for technology, businesses and humans.

Will these new advanced technologies be affordable, scalable, and acceptable – environmental, economically and “socially” - with excellent coverage locally and globally?

and

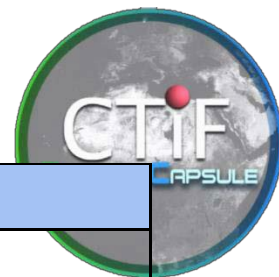

How will these technologies improve global business model innovation, development and collaborations at governmental, research and industry level?

CGC Foundation will “at its heart” encourage future projects, investment and learning with cross interdisciplinary networks of researchers and businesses through technology platforms and multi business model innovation. Excellent presentations will trigger discussions at THE CGC Foundation Opening and will answer to most of the complex questions of how to advanced technologies can ensure sustainable Circular Green Environment, Sustainable business and societies - not least - sustainable social innovation and development at the local and the global level.
